

Please **amend** the claims as follows:

IN THE CLAIMS

Claim 1 (canceled)

2. (Currently amended) In combination, a toy and a security alarm system, comprising:

said security alarm system for said toy comprising a controller and having an armed state and an unarmed state, the controller being responsive to a signal input to at least one input thereof to cause the security alarm device for said toy to selectively assume the armed and unarmed states;

a signaling device coupled to the controller and responsive to provide an audio or visual alarm signal;

the controller causing the signaling device to provide an alarm signal with a change of state of the security alarm device for said toy between the armed state and the unarmed state.

Claims 3-21 (canceled)

24. (Currently amended) In combination, a toy and a ~~a~~ security alarm system ,

comprising:

said ~~Said~~ security alarm system for said toy comprising a controller activation of an alarm, the security alarm having an armed state and an unarmed state , the controller being responsive to a signal provided to at least one input of the controller to cause the security alarm device for said toy to selectively assume the armed and unarmed states;

a signaling device coupled to the controller and responsive to provide at least one first audio or visual alarm signal representing a change in state of the security alarm device.

30. (Currently amended) In combination, a toy and a ~~aa~~ security alarm system,
~~alam~~-comprising:

said security alarm system for said toy comprising a controller and having an armed and unarmed state, the controller being responsive to at least one input thereof to cause the security alarm device for said toy to selectively assume the armed and unarmed device.
